szeki.lilla@pannondiak.hu

Looking for a student job where you can gain hands-on experience in business analysis, IT and data? Join an international team, work with real business processes and enterprise systems, and develop valuable skills while learning from experienced professionals!

Tasks

- Support daily operations of Global Logistics applications and business processes
- Perform basic system administration and operational tasks
- Work with SQL/DB2 to support reporting and data analysis
- Monitor reports and assist with first-level troubleshooting
- Support testing, incident investigations and application updates
- Participate in projects and process improvement initiatives
- Maintain documentation and explore automation opportunities

Expectations

- Advanced English language skills
- Availability to work **20–30 hours per week**
- Ongoing university studies at a Hungarian university
- Good communication and teamwork skills
- Analytical thinking and problem-solving mindset

- Basic knowledge of SQL and databases
- Confident MS Excel skills and general IT knowledge
- Proactive attitude and eagerness to learn
- Ability to work independently and manage priorities
- Reliable and detail-oriented approach

Co offer

- Gross salary of **HUF 2,800/hour**
- Hands-on experience in an international business environment
- Opportunity to develop your SQL, data analysis and IT skills
- Mentoring and support from experienced professionals
- Insight into Global Logistics processes and enterprise systems
- A collaborative and supportive team environment
- Exposure to automation, AI and continuous improvement
